EDUCATION

B.Sc. in Communication Engineering - Al-Quds University

Sep 2016 - Aug 2021

PROFESSIONAL SUMMARY

Frontend & Full-Stack Developer specializing in React.js and Next.js, with hands-on experience building real-world applications and scalable user interfaces. Experienced in integrating APIs, improving performance, and delivering production-level features. Strong background in technical support and network engineering, enhancing problem-solving and system understanding.

WORK EXPERIENCE

Frontend Developer (Part-time) | Swapmoq

Apr 2025 - present

- Built and maintained frontend features using React.js and Next.js
- Implemented responsive UI components using Tailwind CSS
- Collaborated with backend team to integrate APIs and improve performance
- Worked on production-level features and real user interactions
- Developed dashboard features including notifications and user interactions

Volunteer – Frontend Developer | Forsa khadra Platform

Sep 2025 - present

- Contributed to building and improving the platform's user interface
- Collaborated with other volunteers to implement responsive and accessible UI components.
- Helped enhance overall user experience and performance through code reviews and optimizations.

Intern - Full-Stack Development Amana Bootcamp

Aug 2025 - present

- Built projects using Next.js, React.js, Tailwind CSS, Node.js, Express.js, PostgreSQL, and MongoDB.
- Practiced application design, rapid prototyping, and deployment with GitHub and Vercel.
- Leveraged AI-powered development tools (Cursor, Gemini) to boost productivity.

Intern - PS Core Engineer Ooredoo Palestine

Aug 2023 - Feb 2024

- Improved network performance by optimizing PS Core configurations, resulting in a 20% increase in throughput
- Reduced system downtime by 15% through proactive monitoring and issue resolution
- Collaborated with engineering teams to enhance infrastructure efficiency and documentation

Part-time - React Developer – PalSoft for AI & Technology Solutions

Jul 2024 – Sep 2024

- Developed and improved the frontend of "My Dream Place", a travel and booking website, using React.js and React Hooks.
- Built responsive and user-friendly UI components to support hotel/travel browsing and booking flows.
- Applied reusable component structure and state management practices to improve maintainability.
- Collaborated on UI enhancements to improve the overall user experience across different screen sizes.

- Resolved technical issues for internal systems with a 95% satisfaction rate
- Trained end-users, improving IT proficiency across staff by 30%
- Shortened ticket resolution times by 25% through streamlined support workflows

- Identified and documented over 50 bugs, reducing unresolved issues by 35%
- Enhanced product performance by 20% by collaborating with developers
- Implemented test plans and automation tools to improve release reliability

CERTIFICATIONS & COURSES:

- CCNA - Cisco Certified Network Associate
- Automation Anywhere RPA
- AWS Services
- Full Stack Development (React, Express) - Seven9 Academy
- React.js - Palsoft
- Full Stack Development (React, Spring Boot) - JHF
- Front-End Development - UDACITY

PROJECTS

- **MyDream Place – Travel & Booking Website**
Built a fully responsive frontend using React.js and Tailwind CSS for an intuitive user experience.
- **Book Library – E-commerce Platform**
Backend: Developed RESTful APIs using Express.js to manage book data and transactions.
Frontend: Designed and implemented an interactive UI with React.js.
- **YALLA SHABAB – Event Management Website**
Backend: Built event management APIs with Spring Boot.
Frontend: Developed using React.js and Bootstrap for responsive layouts.
- **FitFinder – Resume Ranker**
Backend: Implemented a Flask REST API for analyzing and ranking resumes based on job descriptions.
Frontend: Created a dynamic interface using React.js, TypeScript, and Next.js.

TECHNICAL SKILLS

- **Languages & Web Technologies:** JavaScript, TypeScript, Python
- **Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, Spring Boot
- **Databases:** PostgreSQL, MongoDB, MySQL, Oracle
- **Tools & Platforms:** GitHub, Vercel, IntelliJ, WebStorm, VS Code, Postman, VMware, XAMPP, JMeter
- **Databases:** Oracle Database, Oracle APEX, SQL Tuning
- **Operating Systems:** Linux, Windows
